PRESENTATION

This document gathers the 2025 Statistics of the Hospitaller Order of Saint John of God, offering an updated and objective overview of the life of the Brothers in the various Provinces and in the contexts where Hospitality is present.

More than simple numbers, these data express a living story: vocations that persevere, communities that grow, generations that meet, and a mission that continues to serve the world of suffering with creative fidelity.

The information collected here not only makes it possible to analyse our reality responsibly, but also to discern more clearly the challenges and opportunities that the future presents to us, in the hope of continuing to build hospitality in a world that is constantly changing.
